CONTENTS

No. 1, August 1996

RESEARCH NOTE

Birenheide, Rüdiger, and Tatsuo Motokawa
Contractile connective tissue in crinoids 1

DEVELOPMENT AND REPRODUCTION

Browne, Carole L., Robbert Creton, Eric Karplus, Peter J. Mohler, Robert E. Palazzo, and Andrew L. Miller
Analysis of the calcium transient at NEB during the first cell cycle in dividing sea urchin eggs 5

Byrne, M., and A. Cerra
Evolution of intragonadal development in the diminutive asterinid sea stars *Patiriella vivipara* and *P. parvivipara* with an overview of development in the Asterinidae 17

Fong, Peter P., Ryusaku Deguchi, and Keiichiro Kyozuka
Serotonergic ligands induce spawning but not oocyte maturation in the bivalve *Mactra chinensis* from central Japan 27

PHYSIOLOGY

Mangum, Charlotte P., and Amanda L. McKenney
Subunit composition of the crustacean hemocyanins: divergence in incipient speciation 33

Silverman, Harold, John W. Lynn, and Thomas H. Dietz
Particle capture by the gills of *Dreissena polymorpha:* structure and function of latero-frontal cirri 42

FINDING FOOD: NEUROETHOLOGICAL ASPECTS OF FORAGING

Bowdan, Elizabeth, and Gordon A. Wyse
Introduction to the proceedings of a symposium in honor of Vincent Gaston Dethier (1915–1993) . . . 57

Gelperin, Alan
Learning, memory, and neural networks: introduction 60

Weeks, Janis C., and Emma R. Wood
Short- and long-term modification of reflex function during learning and metamorphosis in *Manduca* 62

Laurent, Gilles, Michael Wehr, Katrina MacLeod, Mark Stopfer, Beulah Leitch, and Hanan Davidowitz
Dynamic encoding of odors with oscillating neuronal assemblies in the locust brain 70

Smith, Brian H.
The role of attention in learning about odorants . . 76

Kamil, Alan
Temporal shifts in foraging strategy: introduction 84

Stephens, D.W.
On the relationship between the feedback control of digestion and the temporal pattern of food intake 85

Jacobs, Lucia F.
The economy of winter: phenotypic plasticity in behavior and brain structure 92

Konishi, Masakazu
Neuroethology of orientation and navigation: introduction 101

Kawasaki, Masashi
Comparative analysis of the jamming avoidance response in African and South American wave-type electric fishes 103

Simmons, James A., Steven P. Dear, Michael J. Ferragamo, Tim Haresign, and Jonathan Fritz
Representation of perceptual dimensions of insect prey during terminal pursuit by echolocating bats 109

Bowdan, Elizabeth, and Gordon A. Wyse
Sensory ecology: introduction 122

Dusenbery, David B.
Information is where you find it 124

Atema, Jelle
Eddy chemotaxis and odor landscapes: exploration of nature with animal sensors 129

NEUROBIOLOGY

Gelperin, Alan
Flies, genes, and memory engineering 139

Annual Report of the Marine Biological Laboratory R1

CONTENTS

NO. 2, OCTOBER 1996

RESEARCH NOTES

Guo, Ximing, and Standish K. Allen, Jr.
Complete interference and nonrandom distribution of meiotic crossover in a mollusc, *Mulinia lateralis* (Say) 145

Morse, Aileen N. C., Kenji Iwao, Masasuke Baba, Kazuyuki Shimoike, Takeshi Hayashibara, and Makoto Omori
An ancient chemosensory mechanism brings new life to coral reefs 149

Yang, Tzung-Horng, and George N. Somero
Activity of lactate dehydrogenase but not its concentration of messenger RNA increases with body size in barred sand bass, *Paralabrax nebulifer* (Teleostei) 155

IMMUNOLOGY

Yin, Chaoquan, and Tom Humphreys
Acute cytotoxic allogeneic histoincompatibility reactions involving gray cells in the marine sponge, *Callyspongia diffusa* 159

DEVELOPMENT AND REPRODUCTION

Frick, Jennifer E., and Edward E. Ruppert
Primordial germ cells of *Synaptula hydriformis* (Holothuroidea; Echinodermata) are epithelial flagellated-collar cells: their apical-basal polarity becomes primary egg polarity 168

NEUROBIOLOGY AND BEHAVIOR

Couper, Julia M., and Esther M. Leise
Serotonin injections induce metamorphosis in larvae of the gastropod mollusc *Ilyanassa obsoleta* 178

Wilkens, Lon A., Barbara Schmitz, and William F. Herrnkind
Antennal responses to hydrodynamic and tactile stimuli in the spiny lobster *Panulirus argus* 187

Phillips, Nicole E., and Bruno Pernet
Capture of large particles by suspension-feeding scaleworm larvae (Polychaeta: Polynoida) 199

ECOLOGY AND EVOLUTION

Telford, Malcolm, and Rich Mooi
Podial particle picking in *Cassidulus caribaearum* (Echinodermata: Echinoidea) and the phylogeny of sea urchin feeding mechanisms 209

PHYSIOLOGY

Wendt, Dean E.
Effect of larval swimming duration on success of metamorphosis and size of the ancestrular lophophore in *Bugula neritina* (Bryozoa) 224

Saigusa, M.
Two kinds of active factor in crab hatch water: ovigerous-hair stripping substance (OHSS) and a proteinase 234

Henry, Raymond P., Susan A. Jackson, and Charlotte P. Mangum
Ultrastructure and transport-related enzymes of the gills and coxal gland of the horseshoe crab *Limulus polyphemus* 241

* * *

Short Reports from the Marine Biological Laboratory's General Scientific Meetings 251

NO. 3, DECEMBER 1996

RESEARCH NOTE

Gilly, William F., Thomas Preuss, and Matthew B. McFarlane
All-or-none contraction and sodium channels in a subset of circular muscle fibers of squid mantle . . . 337

NEUROBIOLOGY AND BEHAVIOR

Price, D. A., K. E. Doble, W. Lesser, M. J. Greenberg, K. M. Swiderek, T. D. Lee, E. M. Lutz, J. Sommerville, S. Falconer, and G. A. Cottrell
The peptide pQFYRFamide is encoded on the FMRFamide precursor of the snail *Helix aspersa* but does not activate the FMRFamide-gated sodium current 341

Germain, Guy, and Michel Anctil
Evidence for intercellular coupling and connexin-like protein in the luminescent endoderm of *Renilla koellikeri* (Cnidaria, Anthozoa) 353

Tamburri, Mario N., Christopher M. Finelli, David S. Wethey, and Richard K. Zimmer-Faust
Chemical induction of larval settlement behavior in flow 367

DEVELOPMENT

Glas, Patricia S., Jeffrey D. Green, and John W. Lynn
Morphological evidence for a chitin-like glycoprotein in penaeid hatching envelopes 374

Loomis, Stephen H., Steven C. Hand, and Paul E. Fell
Metabolism of gemmules from the freshwater sponge *Eunapius fragilis* during diapause and post-diapause states 385
Loomis, Stephen H., Louis F. Ungemach, Bruce R. Branchini, Steven C. Hand, and Paul E. Fell
Carbohydrate mobilization during germination of post-diapausing gemmules of the freshwater sponge *Eunapius fragilis* 393
Shilling, Fraser M., Ove Hoegh-Guldberg, and Donal T. Manahan
Sources of energy for increased metabolic demand during metamorphosis of the abalone *Haliotis rufescens* (Mollusca) 402

PHYSIOLOGY

Clarke, Michael, and Robert F. McMahon
Effects of hypoxia and low-frequency agitation on byssogenesis in the freshwater mussel *Dreissena polymorpha* (Pallas) 413
Lee, Raymond W., David W. Kraus, and Jeannette E. Doeller
Sulfide-stimulation of oxygen consumption rate and cytochrome reduction in gills of the estuarine mussel *Geukensia demissa* 421
Ferguson, John C.
Madreporite function and fluid volume relationships in sea urchins 431

IMMUNOLOGY

Hutton, Danielle M. C., and Valerie J. Smith
Antibacterial properties of isolated amoebocytes from the sea anemone *Actinia equina* 441

* * *

Index for Volume 191 452

Notice to Subscribers

1997 SUBSCRIPTION RATES FOR *The Biological Bulletin:* A lower rate is now available to individual subscribers (as distinguished from libraries and institutions). Subscription per year (six issues, two volumes): $195 for libraries; $100 for individuals. Subscription per volume (three issues): $97.50 for libraries; $50 for individuals. Back and single issues (subject to availability): $40 for libraries; $20 for individuals. For additional information, please contact our subscription officer at the Marine Biological Laboratory, 7 MBL Street, Woods Hole, MA 02543; tel: (508) 289-7402.
